Educational Policy Committee Report – Bill Smith

Trustee Smith convened the Educational Policy Committee to take action on the potential merger of the Department of Finance with Accountancy & Legal Studies in the College of Business and Behavioral Science. Provost Helms said that the two departments share common curricula. The Finance Department chairman had retired so this was a good time to merge the two. This also creates a $250,000.00 savings. Each department will retain their separate degrees. This requires internal approvals and notification to the Commission on Higher Education.

Trustee McCraw moved for approval of the merger. Trustee McAbee seconded the motion. The motion passed unanimously.

The Committee adjourned.

Action Items:
Trustee Smith moved for board approval of the merger of the Department of Finance and Accountancy & Legal Studies in the College of Business and Behavioral Studies. The motion passed unanimously.

Provost Helms said all the following action items presented for board approval required no new funds.

New Graduate Certificate - The Committee recommended approval of the following new graduate certificate:

- Clinical and Health Services Research

Trustee Swann requested additional information on costs and where the reallocation takes place. He is concerned about the board approving items on the agenda without having costs associated with the changes.

Provost Helms noted the University Center at Greenville pays for itself. Also, graduate certificates and online degrees are funding generators. Trustee Smith said the Board has set policy requiring new centers and institutes to break even within a two year time period. In addition, the Board receives a yearly report on centers and institutes. Trustee Smith also said that additional cost information will be provided in the future.

The motion passed.
