

NOTE: Advising worksheets are supplemental planning aids. Every effort is made to ensure accuracy; however, it is the student's responsibility to understand and meet degree requirements as stated in the applicable Undergraduate Announcements. All students must have a cumulative grade point average of 2.0 or better before changing their major to Economics BA.

<sup>1</sup> **All** students are *required* to take the Clemson Math Placement Test (CMPT) *prior* to registering for their first math course at Clemson. To take the test, go to <https://mthsc.clemson.edu/cmpt/> and follow the instructions. See advisor for information on course selection. The following sequences are also acceptable: MATH 1060/1080; and MATH 1060/2070. Students considering a graduate degree in economics should begin with MATH 1060.

<sup>2</sup> Students must complete through 2020 in a modern language. Language courses at the 1000- level are now considered "prep" courses and count as electives. Modern languages are ASL, Arabic, Chinese, French, German, Italian, Japanese, Latin, Portuguese, Russian, and Spanish. Students planning on taking French, German or Spanish must take the Clemson foreign language placement test before registering for a foreign language course.

<sup>3</sup> See General Education Requirements list in the catalog.

<sup>4</sup> Three credit hours must be selected from ECON 3440, 3500, 3600, 4020, 4040, 4100, 4240, 4260, 4350, 4550.  
Note: Only ECON courses numbered 3160 and above may be used to satisfy the major requirement.

<sup>5</sup> See General Education Requirements list in the catalog. If this requirement is met through the completion of another General Education requirement, students will have three additional elective hours. Students must complete 120 total hours.

<sup>6</sup> Economics majors may choose, in consultation with their advisors, any College-approved minor (see p. 100 Undergraduate Announcements).

<sup>7</sup> Elective hours may be used for courses not required by General Education or your major curriculum and may be taken in any combination or at any time during your college career.

<sup>8</sup> Students considering a graduate degree in Economics or related fields should take MATH 3020. The math sequence becomes MATH 1060, 1080, 2060, and 3020.

<sup>9</sup> This course satisfies the cross-cultural awareness requirement.

<sup>10</sup> Reserving this course, electives, and coursework for some minors (when possible) increases study abroad opportunities. Contact the Student Enrichment office (132 Sirrine) for further information and assistance with study abroad opportunities.

<sup>11</sup> A grade of C or better is required to take MATH 2070.
