<sup>1</sup> **All** students (including transfer students with incoming math credit) are *required* to take the Clemson Math Placement Test (CMPT) *prior* to registering for their first math course at Clemson. If a student elects to take MTHSC 106 or 108, one credit-hour will be applied toward the elective hour requirement. See advisor for information on course selection. NOTE: Three courses in mathematics are required. See General Education Requirements (p. 33 Undergraduate Announcements). To take the test, go to <http://www.math.clemson.edu/CMPT/> and follow the instructions.

<sup>2</sup> See back of worksheet for footnote 2.

<sup>3</sup> See the Psychology Department Student Handbook for approved courses. Three additional science courses are required beyond the freshman Biology series. **NOTE: Two of these courses must be a sequence in the same Natural Science other than Biology.** Extra credit hours earned from a required lab will count toward the final science requirement.

<sup>4</sup> See General Education Requirements, p.33 Undergraduate Announcements.

<sup>5</sup> See General Education Requirements, p.33 Undergraduate Announcements; may not be a Psychology course.

<sup>6</sup> Elective hours may be used for courses not required by General Education or your major curriculum and may be taken in any combination or at any time during your college career.

<sup>7</sup> See General Education Requirements (p. 33 Undergraduate Announcements). This requirement may be satisfied by other courses in the curriculum. In this case, elective hours may be substituted.

<sup>8</sup> See list of approved minors (p. 80 Undergraduate Announcements).

#### Note:

1. Students must place material in an electronic General Education portfolio to document their work on General Education competencies. Information and instructions are available at <http://MyCLE.clemson.edu>.
2. Students may elect to substitute BIOL 110 and 111 for BIOL 103/105 and 104/106. In this case, the extra two credit hours will count toward the junior semester science requirement.
3. The Psychology department also publishes a 2007-2008 handbook for your use.

120 Total Semester Hours

<sup>2</sup> The Bachelor of Science program requires PSYCH 201, 202, 309, 310, 492, and 19 additional credit hours in Psychology. Select sixteen (16) credit hours as follows: two courses from the Biological & Cognitive Area, one course from the Applied Area, one course from the Foundations in Science area, and one course from the Individual & Group Area. Students are also required to take a laboratory course, which is typically 1 credit hour. The remaining three (3) required credit hours is a Psychology elective, and students may fulfill these hours in a variety of ways. Majors must take at least six credit hours from 400-level Psychology courses, with at least three hours from courses numbered between 400 and 489. BIOSC 470 may be taken in lieu of one 300- or 400- level elective Psychology course. Students should consult their departmental advisor for other degree requirements and course recommendations.
