Academic and Professional Positions

Position	Employer	Date
Academic		
Visiting Professor	Kazakh National Technical & Research U.	Dec. 2016
Professor of Land. Arch+Urban Design	Clemson University	July 2012 to present
Professor & Chair (w/tenure)	Clemson University School of PDPLA	Aug.2010 to June 2012
Professor & Director (w/tenure)	University of Oklahoma Div. of Landscape Architecture	Aug. 2006 to May 2010 (Note: Director through 8/09)
Founding Director	Center for Community Based Projects Div. of Landscape Architecture University of Oklahoma	Aug. 2004 to 2010
Associate Professor & Director (w/tenure)	University of Oklahoma Div. of Landscape Architecture	Aug. 1999 to 2006
Associate Professor (w/tenure)	Mississippi State University Dept. of Landscape Architecture	Jan. 1997 to May 1999
Associate Professor (w/tenure)	Ball State University Department of Urban Planning	June 1994 - Dec. 1996
Assistant Professor	Ball State University Department of Urban Planning	Aug. 1989 – May 1994
Vis. Assistant Professor	Texas Tech University Dept. of Landscape Architecture	Aug. 1984 - Aug. 1986
Lecturer	Texas Tech University Dept. of Landscape Architecture	Jan. 1984 - Aug. 1984
Lecturer	Cal Poly Pomona Dept. of Landscape Architecture	Summer 1984
Professional Practice		
Principal	Schurch and Company, San Diego	1982 - 1985
Principal	Cunningham Schurch, Inc., Santa Barbara	1981 - 1982
Project Landscape Architect	Wimmer Yamada & Associates, San Diego	1980 - 1981
Environmental Analyst	Hirsch & Company, San Diego	1979 - 1980
Project Designer	John Fitzpatrick & Associates, San Diego	1978 - 1979
Land Surveyor	Land Survey Service, La Jolla	1972 - 1974

Major Fields of Interest

Urban Design, Urban Form, Meaning in the Built Environment – These interests include conventional approaches to form giving in addition to aspects of regional character that are reflected in natural, historical, and cultural features. Pertinent to these interests are characteristics and means of shared understanding as they relate to sustainability, community, aesthetics, and ethos within given cultures for purposes of attaining meaningful cultural, built, and natural environments.

Community Based Service Learning - Included in this interest basic and applied research efforts providing graduate students with “real world” planning experiences that simultaneously engage and assist client communities, community groups, and elected and appointed officials in visioning, community development, land use issues, implementation, and funding strategies.

Dissertation

Title: "Cultural Ethic and the Urban Landscape: a Basis for Sustained Community"

This study presents and analyzes historical data pertaining to the scientific revolution, the Age of Enlightenment, Romanticism, landscape architectural theory and urban form as a partial basis for developing a "cultural ethic" practicable by the environmental design disciplines. A humanistic concept of regionalism and substantive traditions such as "communicative action," community, rituals and celebrations, dwelling, craft, and agricultural practices are shown to be integral components of the ethic. Regard for regionalism and region-based tradition is concluded to be fundamental to the realization of "place" and the attainment of meaningful built environments.

Thesis/Project

Title: "Santa Barbara Municipal Airport, Master Planting Plan Guidelines and Recommendations"

Conducted under contract to the City of Santa Barbara, this project developed planning and land use recommendations for the City's municipal airport. Located on fill within a major portion of a salt-marsh habitat, the 944 acre project site provided opportunities and constraints arising from airport use and maintenance; saline soils; abundant ground water; major remnants of a WW II U.S. Marine air base; archaeological sites; significant local and regional native vegetation; and proximity to the Pacific Ocean, and confluence of ten intermittent streams draining a topographically diverse 30,000 acre watershed.

Academic Activities and Development

Clemson University Master of Resilient Urban Design Program in Charleston

As a member of the curriculum and steering committee guiding the development of a post-professional MURD degree I was tasked with the lead responsibility in creating an innovative one-year curriculum to be delivered in Charleston, South Carolina. Other than curriculum design I assumed duties regarding completion of standard forms for approval by the Clemson Board of Regents, and the South Carolina Commission of Higher Education.

New School of Architecture+Design Bachelor of Landscape Architecture Curriculum

Invited consultant work to develop a four year curriculum leading to the Bachelor of Landscape Architecture degree.

Program Development Activities

"Urban Design San Francisco" - special problems course in landscape architecture, Texas Tech University
This course was developed to provide students in landscape architecture with the opportunity to experience and analyze the design and use of significant urban developments in the San Francisco Bay Area. In addition, discussions were held with leading professionals in the field of landscape architecture, offices were visited to observe working environments and a presentation was held at U.C. Berkeley's Environmental Simulation Lab.

Seminar in Park Administration and Landscape Architecture

This seminar was organized to introduce senior level students at Texas Tech University to advanced aspects of design processes and regional factors affecting such processes. Particular attention was given to ways of thinking, seeing and visualization, and cultural considerations affecting and affected by the human condition.

PLAN 261: Communication and Presentation Techniques

PLAN 261 was a new course in Ball State University's Department of Urban Planning, which I organized and developed. This course prepared students in the use of 35mm SLR cameras, automated slide presentations with multiple sound tracks, video presentations with multiple sound tracks, desk top publishing, image manipulation with computers, teleconferencing, the "information super highway," oral presentations, and diagrammatic drawing.

Ball State University Master of Urban Design Program in Indianapolis

Working with BSU's College of Architecture and Planning Dean, and a team of two CAP faculty, I developed the College's first distance learning offering to post-professional design degree students in the Indianapolis area. The focus of the offering was a Survey of Urban Design course that I had responsibility for teaching.

Invited Speaker

- ULI, South Carolina Chapter, "Parks, Open Space, and Urban Legacy," Greenville, SC, March, 2012.
- Dauphine Island Sea Lab, Dauphin Island, AL, February, 2004. Topic: "Land Use Planning Experiences in Coastal Zone Management."
- Department of Biological Sciences, January, Mississippi State University, January, 1999. Topic: "Getting to Know Environmental Planning."
- City of Starkville Community Workshop, October, 1997. Topic: "Planning Strategies for the Main Street-University Drive Corridor."
- Juniper Front Community Garden Association, San Diego, May, 1997. Topic: "Community Gardens as 'Centers'."
- Ball State University Art Museum Talk, March, 1992. Topic: "Community Art in City Design."
- Ball State University Arts Alliance, Feb., 1991. Topic: "Perspectives on Modern Urban Design."
- San Diego Horticultural Society, June, 1979. Topic: "Space and Form in SFR Outdoor Spaces."

Invited Interviews

Columbia Voice blog, February 17, 2014. "Columbia, South Carolina Main Street Vitalization."
WCBI TV, Columbia, MS, August 27(?), 2007. "Canterbury Townhouse Conversion."
Oklahoma Gazette, September 15, 2004. "Where are the Parks?" v. XXVI n. 38.

Invited Reviewer

Chair, external committee for review of emerging landscape architecture degree, Delaware Valley University 2013.
External reviewer, Department of Landscape Architecture, Mississippi State University 2011
External reviewer for grant submitted by the Sustainable Urban Form Consortium to the Engineering and Physical Sciences Research Council (United Kingdom); successfully funded at \$436,300, 2003.
External reviewer as member of the Fulbright Distinguished Chair Specialist Review Committee for the Council for International Exchange of Scholars (CIES), 2003
External reviewer, Department of Urban Planning, Oklahoma City, OK; Downtown Master Streetscape short-listed consultants presentations, 2008.
External curriculum review, Master of Landscape Architecture Program, New School of Architecture and Design, San Diego, CA, 2009.
External reviewer for consideration of faculty promotion and tenure; various including Arizona State University, Ohio State University, University of Georgia, University of New Mexico, Texas Tech University, Delaware Valley University.
