Adobe Connect 8.2 New Features

Meeting experience
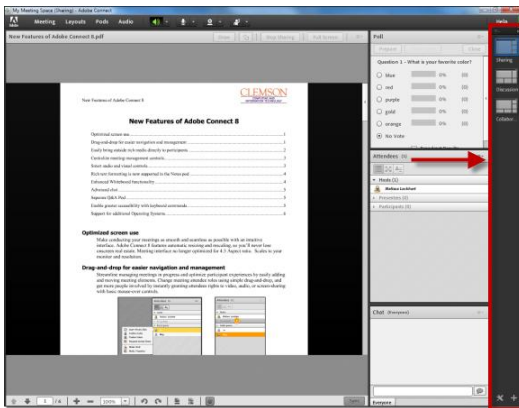

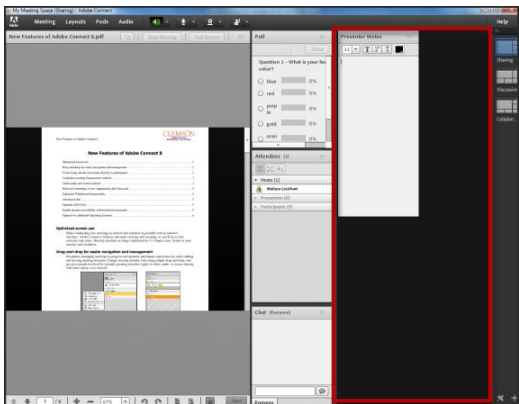

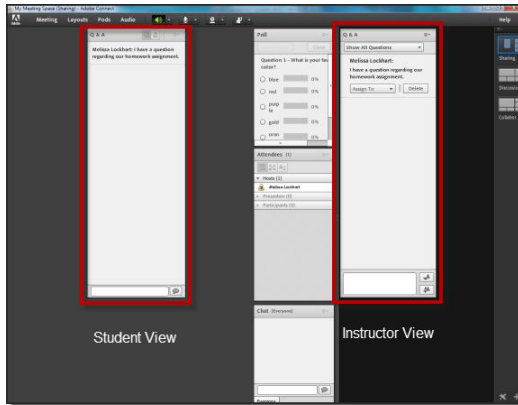

- New Layout Bar added to easily manage and switch between the different meeting layouts

- Revamped Presenter Only Area (POA) allows presenters to view complete meeting room and its content even while using the POA

- Presenters can view a larger size Q&A pod for managing the questions better by replicating the pod in the Presenter Only Area

- Hosts can now provide Whiteboard as an additional advanced participant right for increased collaboration

Attendee management

- Easily identify number of attendees under various roles such as hosts, presenters and participants
- Clearly identify users who have joined as Guest and users who have joined using Adobe Connect Mobile

Breakout room support

- Manage up to 200 users in smaller sub-interest groups during meeting and seminars with enhanced breakout room capacity

New content format

- Users can now share H264 videos in the meeting share pod for more effective presentations
