# School of Computing

Larry F. Hodges, Ph.D.
hf Flagship Endowed Chair Director
lfh@clemson.edu

www.clemson.edu/computing

School of Computing Vision

- Maintain a strong Computer Science core.

- Be a national leader in the definition and advancement of emerging academic fields in computing through the development of successful divisions that ***integrate computation with the arts, sciences, and engineering.***

School of Computing

Computer Science

Visual Computing

Human-Centered Computing

People

- 35 Faculty members
- 360 Undergraduates in Computer Science and Computer Information Systems
- 110 M.S. Students
- 22 M.F.A in Digital Production Arts Students
- 56 Ph.D. Students

Degree Programs

- BA in Computer Science
- BS in Computer Science
- BS in Computer Information Systems

- M.S. in Computer Science
- M.F.A. in Digital Production Arts
- Ph.D. in Computer Science

Virtual Environments

- For use in the treatment of:
    - Anxiety Disorders
    - PTSD
    - Balance Disorders
- Training (Clinical Interview Skills)
- As a medium for Social Science Research

Introductions

Undergraduate Research
Creative Inquiry
