

Are we ready to make  
some plans?

# Are we ready to make some plans?

Early in year

Middle of year

Final part of year

# Are we ready to make some plans?

## Pre-planning

- What are we trying to accomplish?
- What organizational decisions do we have to make?
- What is our image of student participation and learning?
- Should WE create a portfolio or our own attempts at this type of teaching?

## Early in year

- Activities for teachers
- Opp. for practice
- Tools and resources

## Middle of year

- Activities for teachers
- Opp. for practice
- Tools and resources

## Final part of year

- Activities for teachers
- Opp. for practice
- Tools and resources

## Themes that will cut across all work with teachers:

- Let's define success by how students are participating in intellectual work
- Let's stay focused on "big ideas" in science
- Let's not trivialize performance expectations
- Let's agree to take risks and to observe each other teaching

- Let's agree to take risks and to observe each other teaching
