2. Enter the Effective Date (Must be the beginning of a pay period. Choose the appropriate date depending on whether the employee is current or lag.)
3. Action – Promotion
4. Reason – Promotion
5. Position Number – Enter the 8 digit position number of the new position the employee is moving into

Job Information

This information should default in from the position. If any corrections need to be made notify HR immediately.

Payroll

This information usually remains the same. However, if needed change should be made at this time.

Salary Plan

1. Review Rating – Leave the rating code as shown (do not change to ‘N’).
2. Next Review Date – This puts the employee in Trial Status so the Next Review is to be changed to 6 months from the effective date of the promotion
   (NOTE: If the employee is currently in probationary status the Next Review Date is to be changed to show 1 year from the effective date of the promotion.)

Compensation

Pay Components

1. Rate Code – Choose NAANNL (annual) or NAHRLY (hourly) as needed
2. Comp Rate – Enter the new salary
3. Calculate Compensation

Note: Be sure to check the Comp Frequency – top and bottom of the panel – to make sure they are the same and match the rate code. For example – if the rate code is hourly – then both should be H.
