Having a 238 year prominent history, a contemporary education environment and an impressive faculty, Istanbul Technical University has been distinguished in Turkey with its engineering and architecture education. Istanbul Technical University is a state university that defines the professions of engineering and architecture in Turkey while providing a modern educational environment for students while maintaining its conventional structure. Istanbul Technical University educates its students as the future pioneers in engineering and architecture in the national and international arena by establishing strong relations with international institutions. For more information, visit: http://www.itu.edu.tr/en/?about

Quick Facts:
- 5 campuses located in the heart of Istanbul
- 13 colleges and 6 research institutes
- Comprehensive education in 39 undergraduate degree programs
- 145 Masters’ and Ph.D. degree programs
- More than 25,000 students
- Faculty/student ratio: 1/12
- Courses conducted in English

Faculties:
- Faculty of Engineering
- Faculty of Architecture
- Faculty of Mechanical Engineering
- Faculty of Electrical and Electronic Engineering
- Faculty of Mines
- Faculty of Chemical and Metallurgical Engineering
- Faculty Of Computer and Informatics
- Faculty of naval architecture and ocean engineering
- Faculty of science and letters
- Faculty of management
- Faculty of Aeronautics and Astronautics
- Maritime Faculty
- Faculty of Textile technology and design

Estimated Costs:
- Meal at an inexpensive restaurants: USD 7
- Transportation: (monthly pass) USD 73.27
- Sport and leisure: USD 90-100
- Rent/month: USD 353.20-1,026.48
Course Offerings

For more information about courses, visit http://www.international.itu.edu.tr/ and http://www.international.itu.edu.tr/Icerik.aspx?sid=2906

Courses are available in the following subjects:

- Civil Engineering
- Geodesy and Photogrammetric Engineering
- Environmental Engineering
- Architecture
- Urban and Regional Planning
- Industrial and Regional Planning
- Interior Architecture
- Landscape Architecture
- Mechanical Engineering
- Manufacturing Engineering
- Computer Engineering
- Electrical Engineering
- Control Engineering
- Electronics and Communication Engineering
- Mining Engineering
- Geological Engineering
- Petroleum and Natural Gas Engineering
- Geophysical Engineering
- Mineral Processing Engineering
- Chemical Engineering
- Metallurgical and Materials Engineering
- Food Engineering
- Naval Architecture and Marine Engineering
- Shipbuilding and Ocean Engineering
- Mathematics Engineering
- Physics Engineering
- Chemistry
- Molecular Biology and Genetics
- Humanities and Social Sciences
- Management Engineering
- Industrial Engineering
- Aeronautical Engineering
- Meteorological Engineering
- Astronautical Engineering
- Marine Engineering
- Maritime Trans. and Management Engineering
- Textile Engineering
- Fashion Design
- Textile Development and Management
Types of Accommodation

For more information about accommodation, please contact the International Office at Istanbul Technical University: http://www.international.itu.edu.tr/Iletisim.aspx

Fun Facts about Istanbul

- Istanbul, Turkey’s largest city was once one the world’s most important places for more than 1,500 years. Its strategic location made it the center of all commercial activities between Europe and Asia.

- Istanbul is the only city in the world that stands in two different continents, Europe and Asia. The Bosphorus River divides the two continents and joins the Black Sea with the Sea of Marmara.

- Although it was the capital of some of the most important empires in the world: Roman, Byzantine, Latin and Ottoman, Istanbul is not Turkey’s capital. Ankara is the country’s capital since it became the Republic of Turkey in 1923. It is, however, its largest city with close to 12 million people.

- The city was first known as Byzantium but changed to Constantinople when Roman Emperor Constantine the Great made capital of the Eastern Roman Empire. The named finally changed to Istanbul in 1930.
