PHOTOGRAPHS SERIES .33 CUBIC FEET, 1 BOX, FOLDERS 1-19

This series of photographs is arranged alphabetically by folder title. Of particular note are the photographs documenting Camp's work in the Central Valley related to the introduction of cotton in California at the Shafter Experiment Station during the 1920s. Included are pictures relating to a variety of Camp's activities such as the National Rivers and Harbor Tour, the Whittier College Board of Trustees and photos of some special events at Clemson University which honored Camp. There are also some photographs of Camp receiving awards from a variety of other organizations.
