

MSS 167, ADLAI ROBIN YATES PAPERS
 SERIES DESCRIPTIONS AND CONTAINER LISTS

Cemetery and Census Records Series, 1933 - 1983, 3 cu. ft., folders 1 - 167

This series is arranged alphabetically first by state and then by folder title and then generally chronologically within each folder. However, some of the material within the folders is arranged alphabetically by family surnames. Most of this series consists primarily of notes Adlai Yates took from the census records of 1790 - 1900. These census notes are divided into counties within each state. The level of information for each census year varies from state to state. The majority of the census material pertains to Louisiana but there is also information on Alabama, Arkansas, Georgia, Mississippi, South Carolina, Tennessee and Texas. In addition, a very small amount of census data can be found on Florida, Illinois, Kentucky, North Carolina, Ohio and Pennsylvania. Some cemetery records are also included in this series. These cemetery records mainly focus on Louisiana, but there is a little information regarding cemeteries in Alabama, Arkansas, Mississippi, South Carolina and Texas.

Miscellaneous Research Materials Series, 1892 - 1983, 3 cu. ft., folders 1 - 177

This series is generally arranged alphabetically first by state and then by folder title and then chronologically within each folder. However, some of the material within the folders are arranged alphabetically by family surnames. This series contains the material that does not specifically fit into the other two series. These miscellaneous materials includes some correspondence, county maps, death and funeral records, genealogy publications, histories of churches and counties and photocopied book excerpts. In addition, some information on such subjects as marriages, land grants, deeds and wills can be found in this series.
