

College of Industrial Management and Textile Science Graduate Theses and Senior Papers Series.0086

Summary Information

Repository:	Clemson University Libraries Special Collections
Creator:	Clemson University. College of Industrial Management and Textile Science.
Title:	College of Industrial Management and Textile Science Graduate Theses and Senior Papers
ID:	Series.0086
Date [inclusive]:	1907-1984
Extent:	12.0 cubic feet
Language:	English
Abstract:	This series contains graduate theses and senior papers written by students as part of degree requirements.

Preferred Citation

Cite as: Description and date of item, College of Commerce and Industry, Series 86, Special Collections, Clemson University Libraries, Clemson, SC

Administrative History

- 1898 School of Textiles created
- 1923 Textile Department established as successor to School of Textiles
- 1933 School of Textiles established as successor to Textile Department
- 1955 Department of Industrial Management established
School of Industrial Management and Textile Science created by merger of School of
- 1962 Textiles and Department of Industrial Management. The Master of Science degree in management offered
- 1968 Reorganized into three departments: Economics, Industrial Management, and Textiles
- 1969 College of Industrial Management and Textile Science established as successor to the School of Industrial Management and Textile Science. The College was composed of

Departments of Accountancy, Economics, Professional Development, Industrial Management and Textiles.

1981 College of Commerce and Industry established as successor to the College of Industrial Management and Textile Science. The College was organized into three schools: Accountancy, Business, and Textiles.

Scope and Content Note

This series contains a collection of theses and papers that relate to topics in textile science, management and agriculture. The collection was maintained in the Sistine Library of the College of Commerce and Industry until 1989 when the library closed.

Of the 698 titles, 579 were written by seniors who completed course requirements in the departments of agricultural engineering, agronomy, animal husbandry, dairy, entomology, general science, horticulture and zoology. The remainder, 119 titles, were written by graduate students who completed their degrees in civil engineering, industrial management, management, marketing, textile chemistry, textile science, and textiles.

The theses and senior papers were written 1907-1984.

Arrangement

The material is listed in alphabetical order by the author's last name. Theses in boxes 3, 4, 5, 6 and 34 are bound together by year.

Administrative Information

Publication Information

Clemson University Libraries Special Collections 2010 July 26

Restrictions on Use

There are no restrictions on use and access. Items may be reproduced by various means in accordance with Unit policies.

Provenance

These theses and papers originated with the Department of Textiles, the Department of Industrial Management, and the College of Industrial Management and Textile Science. They were

received from the Sistine Library when it disbanded in 1990. The theses were accessioned as 90-107.

Processing Information

Student assistant Hope Brown arranged and processed the series. The finding aid was completed in October 2004.

The conversion of this finding aid to Encoded Archival Description format was made possible with a grant from the South Carolina State Historical Records Advisory Board in 2009-2010. The finding aid was prepared for encoding by Carl Redd.

Jen Bingham updated the list and added the theses in boxes 3 and 4 in May 2011.
