

**Extent:** 6 cu. ft.

**Inclusive dates:** 1920-1963

**Bulk dates:** 1934-1955

**Provenance:** The records were created by the Agricultural Business Office, a unit of the Clemson Cooperative Extension Service at Clemson University. These records were received as accession 87-49.

**Access:** Use of the records is governed by the South Carolina Freedom of Information Act. Access to certain files may not be permitted based on exemptions provided for in this Act. S. C. Code Ann. § 30-4-40 (a) (2)

**Processing:** Dennis S. Taylor, University Archivist, 1999.

**Administrative history note:**

**Scope and content:**

This series contains files on personnel of the Cooperative Extension Service at Clemson College. The records span the years 1920-1963. The files contain rosters of workers, biographical information on individual workers, dates of employment of workers, terms and conditions of employment, salary data, and photographs of many employees. Some folders contain limited correspondence with the employee concerning retirement.

The present arrangement of the records reflects their original order. It is as follows:

- I. Rosters of Extension personnel
- II. Biographical folders of Extension personnel
- III. Administrative specialists
  - A. Clemson College
  - B. Winthrop College
- IV. District and county agents
  - A. White (men and women)
  - B. Negro (men)
- V. Home Demonstration
  - A. Rosters
  - B. Individual agents
  - C. Negro Home Demonstration agents (White and Negro)
  - D. Stenographers
- VI. Stenographers/Secretaries
- VII. Camp employees
  - A. Former employees
  - B. Camp Bob Cooper
  - C. Camp Harry Daniels
- VIII. Wage and hourly employees
- IX. Emergency workers
- X. Salaries
- XI. Photographs

As may be seen from the arrangement, the records pertain to the following classes of personnel: administrative specialists, district and county agents, home demonstration agents, stenographers and secretaries, camp employees, and hourly employees. In addition, two categories of records were filed according to the race of the employees. While the bulk of records pertain to Clemson College employees, a portion pertains to employees of Winthrop College (in Rock Hill, South Carolina) which administered Extension activities in the field of home economics.

Because of the poor quality of the paper on which the data was recorded, photocopies have been made of many of the originals. For a complete listing of the contents, please refer to the inventory that follows this description.
