

Extent: .6 cu. ft.

Provenance: Office of the President

Access: Unrestricted

Processing: Mark Funderburk, student assistant, July 1987. Revised April 2005.

Description: This series contains files about administrative staff members who worked for Clemson College during the presidency of Robert F. Poole. Depending upon the length of service of a staff member, most folders have these items in common: Employment agreements, notices of employment, letters, biographical information, and lists of publications. The folders are arranged alphabetically by the surname of the staff member. Files of other administrators who began their employment during this time and continued their service under the presidency of Robert C. Edwards are found in the Edwards files.

Acidic papers have been replaced with photocopies on archival bond. For a listing of photographs and oversized materials see the "Separation List."
