The Executive Assistant handled all of the matters connected with projects in Senator Thurmond's office. This individual was responsible for all contacts with federal departments and agencies, and with the state and local governments and their agencies. The executive assistant established and maintained agency contacts and sources of information. He was responsible for all contacts with embassies of foreign countries, particularly on immigration matters. In addition, this person performed special assignments or investigations as directed by the senator. The executive assistant kept the senator informed on the all important administrative rulings made by government departments and agencies, and matters of interest in the executive departments. Furthermore, he represented the senator before administrative boards and tribunals when directed, and testified where appropriate. Finally, the executive assistant helped during political campaigns.

The following individuals were executive assistants for Senator Thurmond:

Edward B. Kinney	1962 - 1966	Edward J. Kinghorn, Jr.	1982 - 1984
John M. Evans	1968 - 1973	Jeffrey C. Kull	1985 - 1988
Stephen L. Jones	1974 - 1976	Lee Mikell	1989 -

During the years of 1967 and 1977 - 1980, there was no staff member designated as executive assistant. In 1988, the title of the position was changed to that of projects director.

These materials include correspondence, memorandums, reports, applications, bank receipts and statements, magazine articles and newspaper clippings, blueprints and plans, photographs, and some speeches. The series has one subseries: Subject File.

The Subject File subseries (Subseries A, 1937 - ; 48.15 cu. ft.) contains materials covering projects, grants, political campaigns, and other topics. This series is arranged alphabetically by folder title and chronologically / alphabetically within each folder. Much of the information in this series concerns low-income housing projects, grant applications, water and sewer system projects and various development projects. In addition, there is some information on Title X grants and loans for colleges and universities. There are materials concerning the political campaigns of 1964, 1966, 1972 and 1978. Among these are notebooks concerning President Gerald Ford's and Senator Strom Thurmond's views and accomplishments and the records of the Thurmond Speaks Committee, which was involved with the 1964 Presidential Campaign of Barry Goldwater.
