

Introduction

The Correspondence Management System (CMS) Series, 211.5 cubic feet, formerly known as the Subject Correspondence Series, is named for the central filing system that was used by Senator Strom Thurmond's office for all in-coming and out-going correspondence between 1976 and 1988. The CMS Series covers this period with some overlaps with the Subject Correspondence files for 1976. This series is arranged chronologically by year and alphabetically by subject within each year. The records within each folder are arranged in chronological order. Matthew Priewe and Laurie Varenhorst began work on this series in 1997. Alan Burns, Vicki Schmid, Elisabeth Baty and Shanon Hays continued the processing of this series, completing it in 2007. Correspondence from 1989 through 2002 is included in the Constituent Correspondence Series.

General Information

Most of the material in the CMS series consists of correspondence from and/or to constituents, colleagues, government officials of various levels, friends and family. In addition, the series contains some reports, maps, newspaper or magazine articles which append and/or support the correspondence. A variety of routine office material has been removed from this series, such as purchase orders for office supplies, requests for government documents, and declined invitations. Furthermore, in cases where a moderate to large number of form letters or postcards were received concerning a particular topic, these have been removed from this series and now comprise the Volume Mail Series, 1976-1998. A number of different subjects are covered such as agriculture, applications & employment, civil rights, crime, education, foreign relations, grants (by county), housing, labor, military, natural resources, personal, taxes, trade, textiles, and veterans affairs. These and other subjects continue from year to year within this series, applications & employment and grants being two of the larger subject files.

Scope and Content

Senator Thurmond received thousands of letters each year from multiple and diverse sources. He was widely known for the volume of his constituent and other correspondence, and the service he tried to render to each and every request. Public knowledge of his service increased the additions to the volume of correspondence received each year; people who wanted help knew who to ask for results. Senator Thurmond answered all the correspondence he received with a simple and direct method – to solve the problem himself through his positions and influence, or refer the issue to someone more qualified – by reason of their position or influence – for a quick and satisfactory result.

Some of the major issues and/or topics documented in this series include: Abbeville Hydroelectric Compensation Measure, Alaska National Hunting Bill, Alaska National Interest Lands, Alcohol Abuse Legislation, Amoco Project - Cooper River, Animal Rights Legislation, Bamberg County Hospital Medicare Funding, Base Closures, Budget Deficit, Charleston Harbor Deepening Project, Coal Strike, Comprehensive Employment Training Administration (CETA) Refunding, Congaree Swamp & National Forest, Cowpens National Battlefield, Cypress - Turkish Arms Embargo, Davis Bacon Act, East Columbia Housing Project, Educational Block Grant, Fair Insurance Practices Act, Federal & State Inmates, Ferrochrome Production, Funding for Low Income Housing, Fur Seal Treaty, GATT Multifiber Arrangement, Grand Strand Regional Environmental Impact, Kingstree Sanitary Sewer Project, Korean Airline Tragedy
