I. SCOPE OF SOLICITATION

Clemson University currently licenses CA Technologies software including monitoring software packages for mainframe and distributed technologies. Clemson University is seeking offers to upgrade distributed software packages to the CA Infrastructure Management 2.0 and acquire additional licenses to monitor our computing environment.

AWARD

Award will be made to one Offeror. Award will be made to the lowest responsible and responsive bidder(s).

Any resulting contract will begin on the date specified in the notice of award.

II. INSTRUCTIONS TO OFFERORS

Regardless of specific requirements below or in this document, Offerors are required to submit their proposal electronically through the Clemson University online bidding system. To do so you must login (registering first) at <https://sciquest.ionwave.net/prod/default.aspx?company=clemson>, and follow specific instructions for this solicitation. You should register several days in advance of the bid closing date so you can be approved and login in time to submit a response.

*** End Product Preference (SC or US)**

Section 11-35-1524 provides a preference to vendors offering South Carolina end-products or US end-products, if those products are made, manufactured, or grown in SC or the US, respectively. An end-product is the tangible project identified for acquisition in this solicitation, including all component parts in final form and ready for the use intended. The terms "made," "manufactured," and "grown" are defined by Section 11-35-1524(A). By signing your offer and checking the appropriate space(s) provided and identified on the bid schedule, you certify that the end-product(s) is either made, manufactured or grown in South Carolina, or other states of the United States, as applicable. Preference will be applied as required by law. Post award substitutions are prohibited. See "Substitutions Prohibited - End Product Preferences" provision. Please indicate any preference above per individual item.
