I. SCOPE OF SOLICITATION

Clemson University desires to develop a coordinated marketing and advertising campaign for the College of Health, Education, and Human Development (HEHD) with the professional assistance from a third party vendor that specializes in the promotion of higher education programs. This campaign will help create a branding identity that is regionally, nationally, and internationally known. Currently there is limited or no branding identity for HEHD programs. The HEHD marketing and advertising campaign must fit into the overall Clemson University branding strategy.

In order to attain regional, national, and international awareness and credibility for both our on-campus and our off-campus programs, the College needs a coordinated marketing and advertising campaign developed with the assistance of a third party. As we extend the reach of our programs, we need the assistance of professionals who understand marketing higher education programs to the adult learner. This firm will need excellent contacts in the Greenville, SC community, experience with social media marketing techniques, and an understanding of the adult learner’s and the 21st Century learner’s educational needs and expectations.

While we need to assure that we have excellent programs, faculty, research, and facilities commensurate with a high-quality program, we need to pursue a brand identity and advertising plan that distinguishes us from the highly competitive nature of the adult learning market. The marketing campaign needs to spread the word that the College of Health, Education, and Human Development offers top quality programs and graduates top quality students.

The anticipated final products include:

- A nationally recognized brand compatible with University standards
- An awareness and recruiting mixed-media advertising campaign targeted at the Greenville, SC market including billboards, print advertisements, radio advertisements, event sponsorship, a social media plan, and other marketing opportunities as needed
- Development and printing of branded program brochures
- National/international marketing campaigns to launch and maintain online programs
- Development, maintenance, and analytics associated with program web sites
