

# Clemson 2006 Turf Interns

## Haibo Liu and Ted Whitwell

### Department of Horticulture

A quality internship program must meet the needs of both the student and the superintendent or the manager and it involves much more than working on a golf course, a sports field, or a lawn care company. The followings are our turf students who worked for internship or turfgrass related experience. They have learned a lot and experienced variety of working, operating, and managing opportunities provided by their employers. We sincerely thank all the sponsors for having Clemson turf students and look forward to future internship sponsors.
