

Brown Bag Series Fall 2020

The Brown Bag Seminar Series is an opportunity for the Clemson University community to better understand research integrity and research compliance related topics.

These seminars qualify for one hour of advanced RCR training.

September 17, 2020 – The Unseen Risks in Laboratory Safety

Behavior connects safety plans and desired outcomes. Human behavior is a risk which is influenced by a variety of factors which exceed the implemented safety controls for inherent risks laboratory environments. Simply stated, human risk factors are residual risks which must be considered when addressing laboratory safety. This presentation will explore the invisible risks within the laboratory – those directly associated with human risk factors or residual risk which exists after inherent risks are controlled for strategically.

Presenter – Sean Kaufman, CEO and Founding Partner of Safer Behaviors

To find out more about Sean and Safer Behaviors, please visit: www.saferbehaviors.com

Target audience – Faculty, staff, postdocs and students

Location – via GoToTraining; 11:30am-1:00pm

****You must register here prior to the talk:** <https://attendee.gototraining.com/r/8871641973630820098>

October 20, 2020 – Conflict of Interest, Foreign Influence, and Research: What You Need to Know

Join a panel discussion with a focus on an overview of conflict of interest and foreign influence, and how the two could affect your research.

Presenters – Alisha Oxendine, Conflict of Interest Program Director and Tamara Hemingway, Director of Export Compliance and Research Security

Target audience – Faculty, staff, postdocs and students

Location – via Zoom; 12pm-1pm

Join the Zoom Meeting: <https://clemson.zoom.us/j/99278152975?pwd=MHITUy9XdINxd2VqdHgyMEtmK1VnZz09>

Meeting ID: 992 7815 2975

Passcode: 386541

November 12, 2020 – The Clemson Researcher's Guide to Intellectual Property Basics

Intellectual property (IP) and the issues that accompany it may not be the sole or even the primary focus for a university researcher. However, failure to properly consider IP issues can lead to frustrating and potentially costly challenges. The good news for the researcher is that managing IP in research requires only a minimal working understanding of the issues and where to access on-campus assistance in dealing with them. Attendees of this session will cover IP fundamentals that all researchers should know, the different forms of IP, the importance of IP management in a researcher's work, and provide additional sources of information regarding IP.

Presenter – Chase Kasper, CURF Director of Business Development

Target audience – Faculty, staff, postdocs and students

Location – via Zoom; 12pm-1pm

Join the Zoom Meeting: <https://clemson.zoom.us/j/99933105332?pwd=U1MyL1q2OTg5SDMzK01Mek01V1VRUT09>

Meeting ID: 999 3310 5332

Passcode: 515037
