Jena University of Applied Sciences

About:
Jena is located in Germany and is a traditional university town. The university is making strides in scientific innovations in engineering and the applied sciences. Students from partner universities are able to take an intensive German language course before the start of the semester. Clemson students will not only enjoy the exciting courses offered at Jena, but students will also be able to go hiking in the Thuringian Forest or skiing in Oberhof, or biking along the river sceneries of the Saale, Ilm, and Werra. The University of Jena is a great choice for students who are interested in the sciences.

Quick Facts:
-Founded in 1991
-124 well equipped, specialized laboratories are on campus
-Students can take German language course through an intensive language course offered before the start of the semester

Faculties and Popular Courses:
- Business Administration
- Electrical Engineering and Information Technology
- Fundamental Sciences
- Mechanical Engineering
- Medical Engineering and Biotechnology
