REQUEST FOR INFORMATION  
Re: Emotional Support Animal In Campus Housing

Student’s Name: ___________________  CUID: _______________________ 

Re: Proposed ESA (if identified):
Name: ____________  Type of animal: ______________  Age of animal: __________

The above-named student has indicated that you are the mental health care provider who has suggested that having an Emotional Support Animal (ESA) in the residence hall will have therapeutic benefit in alleviating one or more of the identified symptoms or effects of the student's mental health disability.

Generally, we accept documentation from providers in the State of South Carolina or the student’s home state who have personal knowledge of the student, consistent with their professional obligations. You need not use this specific form, but all the information requested here is necessary for Clemson University to have in order to consider the request for an ESA; this form is provided as a convenience.

So that we may better evaluate the request for this accommodation, please answer the following questions and attached additional sheets as needed:

Information About the Student’s Disability
1. Federal law defines a person with a disability as someone who has a physical or mental impairment that substantially limits one or more major life activities. That suggests that a diagnosis (label) does not necessarily equate with a disability (substantial limitation). What is the nature of the student’s mental health impairment (that is, how is the student substantially limited?). Please be specific so that we may better understand the student’s situation and limitations.

2. Does the student require ongoing treatment?

3. When did you first meet with the student regarding this mental health diagnosis? ______________

   When did you last interact with the student regarding this mental health diagnosis? ______________

Information About the Proposed ESA
(Please note that there are some restrictions on the kind of animal that can be approved for the residence hall; it is possible the student may be approved for an ESA, based on the information you provide here, but may not be allowed to bring the specific animal named above.)

1. Is the animal named here one that you specifically prescribed as part of treatment for the student, or is it a pet that you believe will have a beneficial effect for the student while in residence on campus?

Revised: July 2020
2. What specific symptoms will be reduced by having an ESA, and how will those symptoms be mitigated by the presence of the ESA?

3. Is there evidence that an ESA has helped this student in the past or currently?

Importance of ESA to Student’s Well-Being

1. In your opinion, how important is it for the student’s well-being that an ESA be in residence on campus? What consequences, in terms of disability symptomology, may result if the accommodation is not approved?

2. This student was provided with a copy of the rules and restrictions surrounding the presence of an animal in residence in the University housing. Has the student shared those restrictions with you? Yes/No

3. Have you discussed the responsibilities associated with properly caring for an animal while engaged in typical college activities and residing in campus housing? Do you believe those responsibilities might exacerbate the student’s symptoms in any way? (If you have not had this conversation with the student, we will discuss with the student at a later date.)

Thank you for taking the time to complete this form/provide this information. If we need additional information, we may contact you but generally, we ask that the student request the information from you. The named student has signed this form (below) indicating written permission to share additional information with us in support of the request. We recognize that having an ESA in the residence hall can be a real benefit for someone with a significant mental health disorder, but the practical limitations of our housing arrangements make it necessary to carefully consider the impact of the request for an ESA on both the student and the campus community.

Please provide contact information, sign and date this questionnaire (below), and return it to your client/patient so that they may submit it to our office with their SAS application.
