One Activity

- Guessing Game

Features of a Guessing Game

- Many possible right answers -> fewer possible right answers -> “the” right answer
 - There may be close alternatives
 - Pick answers that are easy to score
- Open-ended questions by guesser(s)
- Ideal for diagnosis or similar problems
- Can be tied to “fuzzy” points from lecture

- Practice in identifying key information
- Practice in avoiding red herrings

Questions from the class are the key

- They are the expert you are consulting about _____
 - You are the client/patient/user/community member with a question
- They can collaborate
- They can consult whatever else they want
- You can change your answer in response to their questions
- Talk back to them
 - Ask for clarification or respond as you think someone with that issue/question/problem would
- Answer their irrelevant questions!
 - Remember, “you” don’t know what’s relevant
- Answer in character
- Run a couple of questions over what you think is needed for the right answer

Additional Requirements

- Limited acting skill
 - Cosplay or improv skills a plus
- Some stakes for students
 - Bonus points based on top 75% of performance
 - **Similar to exam format!**
- Open book/notes/open mouth
- “WHAT’S THE RIGHT ANSWER?”
 - **Immediate live lockdown of response format**
- High energy

Mechanism

- Google Forms
 - Change background color (min)
 - Add photo (max)
 - Sequential numbering
 - Send short link for each question (via any chat function)
 - Add QR code and photo to ppt (max)
 - Shut manually when most of class has answered
- ***“WHAT’S THE RIGHT ANSWER?”***
- Download answers in office and mark completed forms
 - Change background to gray (min)
 - Move to different folder (max)

Mechanism

- Data management back in your office
- I sort by answer (alphabetically) then I only have to grade the imperfect answers
- Manual link to gradebook
- Takes me under 15 min for 200 – 600 answers

Student Comments (Spring 2021)

- *She made the class so much fun as well as educational through the diagnose a person questions where she would act out being someone with a disorder.*
- *All of (the class activities) were helpful, especially the diagnose a person activities in class.*
- *I really enjoyed the diagnose a person zooms, I felt it was much easier to learn and try to diagnose 'face to face' rather than through a written description.*
- *I love the role plays she does. It makes the class easier to understand.*
- *The reenactments of the disorders is very helpful to see how to diagnose them and get a better understanding my profession.*

Student Comments (Spring 2022)

- *I think the most helpful method was when she would act out a mental disorder (obviously in a respectful and education manner). This was so helpful to be able to visualize and actually understand how the symptoms manifest in real life. Listening and reading about a mental disorder is much different than seeing it in “real life” and this helped me to better understand the diagnoses.*
- *I’ve learned so much from the course in general and the practice diagnosis extra question have been so helpful in applying the concepts we are learning.*
- *Since this class is about different disorders, she would act out a hypothetical disorder and then she would have us diagnose her, which i thought was super cool and it helped me a lot!*
- *Loved how she would act out scenarios in class to help us to learn in a physical way rather than just answering questions*

Universal Intellectual Standards?

- **Clarity** – Illustration; Questions back to students
- **Accuracy** – Check answer against criteria
- **Precision** – Questions back to students
- **Relevance** – Red herrings
- **Depth** – Most significant questions
- **Breadth** – PoV of client
- **Logic** – Point out occasional illogical question
- **Fairness** – Diversity in simulated clients
