Post-Exam Analysis

Overview of Post-Exam Analysis

- Completing a test analysis can be the first step to understanding course material for the future. Use the table below to analyze your exams with your professor.
- Definitions:
 - o Question Types (e.g. Multiple choice, essay, short answer, matching, true/false, etc.)
 - o Careless (e.g. Failed to carry the 1 in a math problem.)
 - o Unfamiliar with Material (e.g. I did not study vocabulary for Spanish)
 - o Misread the Question (e.g. I missed key words in the question that would have changed my answer.)
 - o Did not finish (e.g. I turned in my exam without answering all of the questions).

Test Information			Reason for Missed Question			
Question #	Points Lost	Question Type	Careless	Unfamiliar Material	Misread Question	Did not finish

Post-Exam Reflection

Overview of Post-Exam Reflection

Now that you have completed the post-exam analysis, use the questions below to assist you in reflecting on your exam preparation process and how you can improve for future exams.

What worked well for me in my exam preparation process?						
What did not work well for me in my exam preparation process?						
What adjustments will I make in preparing for future exams?						
What resources will I access in the future?
