

NOTE: Curriculum worksheets are supplemental planning aids. Every effort is made to ensure accuracy; however, it is the student's responsibility to understand and meet degree requirements as stated in the applicable Undergraduate Catalog. All students must have a cumulative grade point average of 2.0 or better before changing their major to Economics BA. Contact the Economics department for approval prior to changing major to Economics.

NOTE:

¹ Placement into the appropriate math class is based on the student's score from the Clemson Math Placement Test or the math portion of their SAT or ACT test. The following Math sequences are acceptable: MATH 1020/2070, MATH 1060/1080, and MATH 1060/2070. If a student elects to take MATH 1060 or 1080, one credit will be applied toward the elective hour requirement. Students considering a graduate degree in Economics should begin with MATH 1060. **See an advisor for approval of course selection.**

² Students must complete through 2020 in a modern language. Language courses at the 1000- level are considered "prep" courses and count as electives. Modern languages taught at Clemson University or accepted for transfer credit include ASL, Arabic, Chinese, French, German, Italian, Japanese, Latin, Portuguese, Russian, and Spanish. Students planning on taking French, German, Russian, or Spanish **must** take the Clemson Modern Language Placement Test before registering for a modern language course. To take the test, go to <https://www.clemson.edu/caah/academics/languages/resources/placement-test.html>

³ See General Education Requirements list in the catalog. If this requirement is met through the completion of another General Education requirement, students will have three additional elective hours. Students must complete 120 total hours. Global Challenges credit hours must be selected from two different fields unless identified as interdisciplinary. At least three credit hours must be selected from a course(s) at the 3000-level or higher. A transfer course may **not** be used to satisfy the General Education Global Challenges Requirement. While a transfer course may fulfill other degree requirements, students must enroll in a Clemson course(s) on the Global Challenges list to fulfill the Global Challenges Requirement.

⁴ Three credit hours must be selected from ECON 3440, 3500, 3600, 4020, 4040, 4100, 4240, 4260, 4350, 4550.
Note: Only ECON courses numbered 3160 and above may be used to satisfy the Major Requirement.

⁵ Currently not used.

⁶ Economics majors may choose, in consultation with their advisors, any College-approved minor.

⁷ Elective hours may be used for courses not required by General Education or your major curriculum and may be taken in any combination or at any time during your college career.

⁸ Students considering a graduate degree in Economics or related fields should take MATH 3020. The math sequence becomes MATH 1060, 1080, 2060, and 3020. MATH 2060 will count as an elective.
