

NOTE: Advising worksheets are supplemental planning aids. Every effort is made to ensure accuracy; however, it is the student's responsibility to understand and meet degree requirements as stated in the applicable Undergraduate Catalog. Pre-Business is not a degree-granting program. All Pre-Business students must complete the Pre-Business freshman core (core courses listed below in ***BOLD ITALICS***) and have a cumulative grade-point average of *2.0 or better before* being admitted into a degree-granting business program (exception: Marketing requires a 3.0 GPA). Students must complete the freshman core and declare a business major by the end of their fourth semester; however, to maintain timely progress toward graduation, students should declare a major by the end of their second semester. Registration for 3000- and 4000-level business courses may be restricted to students in their degree major.

¹ Placement into the appropriate math class is based on the student's score from the Clemson Math Placement Test or the math portion of their SAT or ACT test. The following math sequences are acceptable: MATH 1020/2070, MATH 1060/1080 or MATH 1060/2070. If a student elects to take MATH 1060 or 1080, one credit-hour will be applied toward the elective hour requirement. Students considering a graduate degree in economics or related field should take MATH 1060/1080. **See advisor for approval of course selection.**

² A grade of C or better is required to take MATH 2070.

³ Elective hours may be used for courses not required by General Education or your major curriculum and may be taken in any combination or at any time during your college career.

⁴ See General Education Requirements list in the catalog. If this requirement is met through the completion of another General Education requirement, students will have three additional elective hours. Students must complete 120 total hours. Global Challenges credit hours must be selected from two different fields unless identified as interdisciplinary. At least three credit hours must be selected from a course(s) at the 3000-level or higher. A transfer course may **not** be used to satisfy the General Education Global Challenges Requirement. While a transfer course may fulfill other degree requirements, students must enroll in a Clemson course(s) on the Global Challenges list to fulfill the Global Challenges Requirement.

⁵ Grade of C or better required for Accounting and Financial Management majors.

⁶ STAT 2300/2301 is an option for intended FIN majors only.
