

Reed F. Noss

Dr. Reed F. Noss presented the 2012 Hartzog Lecture at Clemson University on October 30, 2012.

"Trying to Think Big in Conservation"

Reed F. Noss is Provost's Distinguished Research Professor at the University of Central Florida and President of the Florida Institute for Conservation Science. He has a B.S. in Education from the University of Dayton, an M.S. in Ecology from the University of Tennessee, and a Ph.D. in Wildlife Ecology from the University of Florida. He has served as Editor-in-Chief of *Conservation Biology* (1993-1997), President of the Society for Conservation Biology (1999-2001), and President of the North American Section of the Society (2006-2008). He is

an elected Fellow of the American Association for the Advancement of Science and has served on many boards and advisory panels, including the Board of Governors of the Society for Conservation Biology, the Board of Trustees of the Florida Chapter of The Nature Conservancy, and Florida's Acquisition and Restoration Council. He recently served as Vice-Chair of a Federal Advisory Committee for the U.S. Climate Change Science Program.

Professor Noss has nearly 300 publications and is recognized as one of the 500 most highly cited authors in all fields. His research involves the application of science to species-level and ecosystem-level conservation planning, restoration, and management. He is currently writing a book on southern grasslands, studying the effects of suburban and exurban development on bird communities, and conducting research on impacts of, and adaptation to, sea-level rise in Florida.
