

(Re)Activating MATLAB

1. Open MATLAB and make sure you're on the Home tab.
2. Under the **Help** button, choose **Licensing**.
3. Select **Update current license...** If you don't update while your license is active, MATLAB will tell you that you need a valid license and you will have to activate with the activation code again:

16522-14637-21688-83465-42407

You can always call MathWorks support at (508) 647-7000.
