In accordance with the Compliance with Health and Safety Directives policy, this document has been developed with the overarching priority of ensuring the health and safety of our students, employees and the surrounding community. Incidents of noncompliance will result in referrals to the Office of Community and Ethical Standards (students) and Office of Human Resources (employees).

As the semester begins, the University will require weekly (students) and bi-weekly (employees) testing for all — regardless of vaccination status. The testing requirements will be effective in correlation to pre-semester testing. For instance, if a student or employee receives a move-in or pre-semester test on August 10, the next test must be taken within 7 days (by August 17) for students or within 14 days (by August 24) for employees.

The University will utilize pre-semester and ongoing testing data and will adjust and update the testing requirements as the semester proceeds.

STUDENTS ENROLLED AT MAIN CAMPUS OR AT CU-ICAR: Regardless of vaccination status, residential and non-residential students enrolled in classes on main campus and at CU-ICAR are required to submit a negative COVID-19 test within every seven days — either by testing onsite with Rymedi or uploading documentation in the COVID-19 Test Result Upload Tool.

**Students do not need to be tested within 90 days of previous infection with proper information regarding positive test result.

FACULTY AND STAFF AT MAIN CAMPUS OR AT CU-ICAR: Regardless of vaccination status, faculty and staff working on main campus and at CU-ICAR are required to submit a negative COVID-19 test within every 14 days — either by testing onsite with Rymedi or uploading documentation in the COVID-19 Test Result Upload Tool.

**Employees do not need to be tested within 90 days of previous infection with proper information regarding positive test result.
