DESCRIPTION OF COMMODITY OR SERVICE :	UNIT OF BILLING	FY 21/22 RATE	CUSTOMERS BEING SERVED
Malvern Zeta sizer (CUID:220612)	per sample		Industrial companies
Freeze Dryer (Lyophilizer, Labconco), CUID:221028	port/flask used for 72 hours*		Industrial companies

*This instrument has 16 ports, and freeze drying depends on time. Each port connects to the flask of various volumes. Few samples can be placed into one flask, but time which used for freeze drying doesn't depend on sample number in one flask. Therefore we calculate the usage by port/flask occupied for any amount of samples fit in the flask for 72 hours, which is typical time to finish the freeze drying process on samples of most volumes.
