Use of all fabrication tools located @ AMRL within the Micro Photonics Cleanroom in Lab 23, all inclusive. External users will be responsible to provide all wafers and materials. Any chemicals, not currently in use in Lab 23 and needed for an external project, are to be approved & purchased prior to granting access to the cleanroom by the MPL manager.
All chemicals brought into the cleanroom can be used by all users.

* If charging to a sponsored project, the appropriate rate should be selected to not extend past the end date of the project. If a rate is chosen that extends past the sponsored award's end date, you will need to ensure that only the amount applicable to the period of the grant is charged. The remaining time and charge must be allocated to a separate project based on the work performed.
