

**Part I. Financial Support Documentation Requirements**

---

U.S. Universities are required by law to verify that students entering the U.S. with temporary student visas have adequate financial resources to meet the expenses of their program of study. Please have your financial sponsor complete this financial sponsor form and provide supporting financial documents to you so that you can request a Certificate of Eligibility (Form I-20 or DS-2019) from Clemson University. You will use this same financial documentation to apply for your U.S. student visa or change of status within the U.S. If you have multiple financial sponsors, please have each sponsor complete their own separate form.

- Financial Support Documentation Requirements:
  - o Issued within the past six months (Please note that bank statements do not need to include the entire list of transactions for the past six months. The statement just needs to reflect the summary page that confirms the account holder, statement date, and available balance.)
  - o Statement must show the name of the account holder, date of the statement, and total amount of liquid (immediately available) funding
  - o Original statement in English or a translated, certified copy if statement is in another language
