Welcome Dentaveous Walker, Financial Aid Counselor!

About Dentaveous

The Clemson family is excited to welcome our newest financial aid counselor in the student financial office, **Dentaveous Walker**. Dentaveous was recruited from USC Upstate where he also worked as a financial aid accountant and counselor. Originally from Union, SC, he will be relocating from Spartanburg to Central.

Dentaveous has been working in financial aid roles since he was in college at Lander University. He graduated from Lander with a communications degree in 2015 and was hired full time at USC Upstate where he worked for three years. He saw an opening at Clemson and was excited to pursue the opportunity. To Dentaveous, "Clemson is an inclusive school that wants the best for its students. I wanted to be a part of that whole experience. What better way to serve students than to get a job in financial aid!"

When asked what excites him about working at Clemson, Dentaveous enthusiastically responded, "The people who work here. Everyone has been fantastic, and it's such an inclusive community. They have taken me in with open arms, and it feels like a home here. It doesn't feel like a new job. It has been such a positive experience working with people who have the same passion for working with students."

Welcome to Clemson, Dentaveous! Go Tigers!!!!

"Dentaveous Walker's positive outlook and level of engagement is an incredible example of the quality of talent Clemson University is hiring. We are proud he has decided to join the growing Clemson family."

—Vivian Morris,
Director of Engagement & Retention
