In these hills
Getting a great education is only the beginning at Clemson University. This top-ranked public university (U.S. News & World Report, 2022) is committed to taking your talents and interests to heart as you grow into your dream job, postgraduate education or starting your own business.

From the foothills of the Blue Ridge Mountains and the shores of Lake Hartwell, you will forge your own path with hands-on learning experiences, interactive classes and flexible majors that encourage you to choose what’s best for you.

And if you’re not sure what you want to study, we can help. Clemson’s Center for Career and Professional Development is built to match your growing skills with internships, real-world experiences and networking opportunities specific to your interests.

Terryn Witherspoon didn’t wait to blaze her own path at Clemson. Thanks to the University’s commitment to hands-on learning and her own drive to do new things, Terryn made lifelong connections that will guide her in life and her future career.

“Among the things Clemson University excels at is connecting people. No matter how our interests shift or our majors may change, Clemson offers a wonderful community to make those challenging academic decisions.”

— Terryn Witherspoon, senior biological sciences major

Rise to the challenge

Clemson’s 80+ majors are sure to have what you are looking for to grow in your career and in life. Whether you want to double major, major-minor, find an ideal concentration or need professional certifications, we offer small class sizes within a rigorous curriculum to explore a future that fits you.

BACHELOR’S TO GRADUATE – A FASTER WAY TO EARN YOUR GRADUATE DEGREE

Entrepreneur students might want to fast track their master’s degree from the start. Clemson offers a combined bachelor’s and master’s degree plan allowing you to reduce the time typically needed to earn both degrees. There are more than 30 eligible tracks.

Find your niche

Clemson majors offer flexibility no matter your interests. There is no set path you have to take, and our faculty, staff, alumni and student mentor network will work with you and make sense of your academic pursuits.

Find your path at our degrees site.

1. Management
2. Psychology
3. Biological Sciences
4. Nursing
5. Computer Science
6. Mechanical Engineering
7. Marketing
8. Financial Management
9. Electrical Engineering
10. Animal and Veterinary Sciences
Leading the way

Making a difference starts by doing what you love. A great way to figure that out is engaging with professors and professionals. Clemson University partners with businesses around the world for a variety of internships and co-ops including General Electric, Bosch, Vanguard, PepsiCo, Michelin, BMW and many, many more.

Our Great Career Services (1 of 17 schools nationwide) and No. 3 Top 20 Best Schools for Internships (public schools) designations from The Princeton Review (2021) highlight a commitment to the future and growing a network of Tigers anywhere you might go.

Academic Success Center
The heart of campus includes the Cooper Library, Watt Family Innovation Center and our renowned Academic Success Center (ASC). Students who take advantage of these services improve their grades, maintain their scholarships and work one-on-one with mentors to understand difficult class material. From Peer-Assisted Learning (PAL) to academic coaching and tutoring, the success you build at ASC will make you more appealing to employers and graduate schools down the road.

Within an average of six months after graduation, 89 percent of graduates are employed, continuing or planning to continue their education or are not currently seeking employment.

Eighty-one percent of co-op graduation candidates in May 2021 had already accepted a full-time position at a company or had been accepted into graduate school. Within a month after graduation, that figure grew to 85 percent.

You pick with UPIC
Clemson offers real-world experience right on campus with our expansive UPIC program. We offer hundreds of on-campus internships in every field while earning course credit. And, of course, you get paid while doing it.

Though first-generation student J Flores Govea didn’t lack motivation, he was definitely looking for inspiration when he came to Clemson. By his sophomore year, he found that through internships at Gulfstream Aerospace and General Electric, which guided him to pursue his Ph.D. in aerospace engineering. Now, the sky is literally the limit, and he plans to break through that one day as well.

“It’s great that I’ve had so many experiences through Clemson because I know what I want to do now. I have skills that back up my motivation. I’ve always wanted to do a lot and diversify myself. I’ve done that here, and it will only help me become more competitive at the highest levels.”

— J Flores Govea, mechanical engineering ’22
The sheer tenacity of spirit and pride in what we do puts Clemson University in a class of its own. We are designated an R1 Research Institution, the highest rank bestowed by the Carnegie Classification of Institutions of Higher Education.

Our Clemson University Honors College brings specialized courses in smaller classes taught by top faculty. Students are encouraged to participate in global engagement opportunities and pursue innovative research.

We offer a robust Creative Inquiry undergraduate research program featuring more than 500 projects across every field available at Clemson. Since 2005, the program has engaged more than 50,000 undergraduate students in 1,000+ projects ranging from drought-resistant crops and infrastructure development to rocket propulsion and food waste recovery.
College is meant to be a new exploration of life, independence and self-discovery. To do that, you will want to push yourself away from the known and into the unknown. When graduating seniors are asked what they would tell their first-year selves, without hesitation, they say some form of “get outside your comfort zone and get involved.”

Clemson makes that easy with 500+ clubs and organizations highlighting cultural diversity, sports, sustainability efforts, religion, dance, technology and so much more. And if you don’t find the club you want, you can start one.

Clemson’s campus is great, but you might not realize that includes 17,500 acres of Experimental Forest for hiking and biking. It sits along the Lake Hartwell shoreline, making it ideal for kayaking, canoeing or wading at the Snow Family Outdoor Fitness and Wellness Complex.

89% students would still choose Clemson if they could do college all over again.

HOME TEAM RULES
Clemson is part of the Atlantic Coast Conference with 19 NCAA athletic teams, including our three-time football National Champions, the 2021 men’s soccer National Champions and new women’s softball team.

Living large
Residence halls and apartment complexes at Clemson are all within a 10- to 15-minute walk to class. We also have multiple Living-Learning Communities where undergraduates with common academic interests and life experiences can come together to discuss classes or the next trip downtown.

Choices include suite-style living in the center of campus, traditional high rises on Bryan Mall and the Douthit Hills East Neighborhood.

2022 FIRST-YEAR STUDENT CLASS REuffling

Recommended High School Curriculum
- English……………………………………. 4 credits
- Mathematics…………………………… 4 credits
- Laboratory Science…………………… 3 credits
- Foreign Language (same language)………3 credits
- Social Sciences………………………… 2 credits
- U.S. History…………………………… 1 credit
- Fine Arts……………………………… 1 credit
- Physical Education/ROTC……………… 1 credit
- *Students who have completed fewer than three credits of the same foreign language are encouraged to apply. Select majors may have additional requirements.

AP/IB Credit
- Clemson strongly endorses both the Advanced Placement (AP) Program and the International Baccalaureate (IB) Diploma Programme. Use our credits awarded charts to see how many hours your AP class or IB scores will earn here.

Financial Aid
- Clemson was named a top value university by Money magazine in 2022. Financial aid is usually awarded based on need to supplement the amount you and your parents can contribute to your college expenses. The University also awards some scholarships based entirely on academic merit.

- The Office of Admissions automatically reviews each applicant to Clemson for scholarship eligibility (no additional scholarship application required). High school performance, test scores and financial need are all considered when awarding scholarships.

- Incoming first-year students must apply for admission and submit all required materials by January 2 to be considered. Merit scholarship packages will be communicated to students in Spring 2023. To be eligible for federal- and state-based aid, we encourage students to complete the FAFSA by January 2, 2023.

Estimated Costs for 2022-2023

S.C. Resident Full Time (per year)
- Tuition and Fees*……………………….. $15,558
- Room and Board (approximate)…………………. $12,350
