SUMMARY

External reviewers of proposals provide valuable feedback that investigators can use to strengthen proposals prior to submission to funding agencies, thus increasing their potential funding success. The Division of Research facilitates and provides honoraria for the external peer-review of grant proposals with the *EXTERNAL REVIEW INITIATIVE*. Clemson faculty may receive external reviews of grant proposals on which they are the Principal Investigators (PIs). PIs will suggest external reviewers, and ORD staff will coordinate the receipt of written peer reviews. The Division of Research will provide matching funds as honoraria for the reviewers. Submissions of materials for the External Review Initiative must adhere to the timeline outlined below.

ELIGIBILITY

All Clemson University faculty and staff who are eligible to serve as PIs on grant proposals are eligible to participate in the *EXTERNAL REVIEW INITIATIVE*. A maximum of four reviews per PI in each FY funding cycle will be considered.

FUNDING AND REQUIREMENTS

A total of $300 will be provided to each reviewer as an honorarium, split evenly between the VPR office and the investigator/department/school/college. A 1:1 cash cost share is required for all applications. The Division of Research will provide matching funds, up to $150, for each review honorarium. The balance of the requested review budget must be covered by the PI, the PI’s department/school, the PI’s college, or other relevant source.

Matching funds must be allowable under federal and state guidelines. Unallowable matching funds are costs on another federal project or any other committed funds. Additionally, fund sources not allowable are Fund 18 and Fund 20.

A maximum of two reviews will be provided for each proposal. Each review will be counted toward the maximum limit for the *EXTERNAL REVIEW INITIATIVE* funding cycle.
