

The Facts:

**OCCUPATIONAL AND
ENVIRONMENTAL SAFETY**

Laboratory Setup or Move

When a faculty member sets up or moves into a lab or research area, their department along with Facilities & OES assists with the review of renovations & necessary equipment.

OES has developed the setup checklist to help new faculty establish a safe and compliant laboratory environment and provide links to safety training, documents, and lab requirements.

NEW RESEARCH LABORATORY SETUP CHECKLIST:

<https://media.clemson.edu/research/oes/labsafety/NewLabSetupChecklist.pdf>

Schedule a meeting with OES to review the checklist.

For more information about OES, visit our website:
