

REQUEST TO ADD AN INDIVIDUAL TO A RADIONUCLIDE PROJECT

Permission to use radioactive material under a radionuclide project must be granted in advance by the Radiation Safety. If you are not listed in the most recent project authorization document issued to the project, complete this form and submit it for approval to the Radiation Safety.

_____/_____/____ C _____@clemson.edu
First Name Middle Initial Last Name DOB Clemson ID email

Academic Degree(s): PhD Other beyond baccalaureate _____

IMPORTANT: Enter your initials in the boxes for items 1, 2, 3, and 4.

1. I have read and will follow the *General Rules for Radioisotope Labs*.
Initials
2. I have read the project authorization documents and will comply with the conditions of authorization.
Initials
3. I have received instruction from the Responsible Investigator in the safety precautions that I must follow for the specific work that I will perform with radioactive material.
Initials
- 4a. I have attended the Initial Radiation Safety Training at Clemson. (Attach copy of the certificate issued by the Radiation Safety Office if available.)
Initials
- OR**
- 4b. I will attend the Clemson Initial Radiation Safety Training the next time it is offered. (I understand that until I attend the Initial Training, I can only work with radioactive materials under direct supervision of Responsible Investigator or Authorized User.)
Initials

Applicant's Signature _____ **Date** _____

The Responsible Investigator agrees to provide additional instruction to this individual as necessary to ensure that work will be performed safely in accordance with the conditions of the authorization.

Project # _____ **Responsible Investigator's Signature** _____

For Radiation Safety Use Only – Please do not write below this line

The applicant is approved to work under this Radiation Project.
